

# Digital Audio Recorder Basics

## On / Off

Sony  
ICD-  
UX71

**Sony models:** Use the HOLD button. Push DOWN to take off hold / power ON. Push UP to put on hold / power OFF.

**RCA model:** Use the ON / OFF buttons on the top of the recorder.

**RCA Model Only: Switch to WAV format!**

Hold down the INFO / MENU button until you hear a beep, then press it one more time. Press the button again until you see LP, SP or HQ. This is the recording quality setting. Make sure it is set to HQ, which is WAV format.

## RECORD / STOP

The red light will come on when recording.

**Sony models:** Press the RED button to record. Press the PLAY/STOP button to stop.

**RCA model:** Press the RED button to record. Press the OFF button on the front to stop.

## PLAY / STOP

**Sony models:** Click the FOLDER button to select the desired folder. Use the up/down or skip forward/back buttons to select the desired track. Press the PLAY/STOP button to play audio back. Press the same button again to stop. The green light will come on when playing audio back.

**RCA model:** Hold down the INFO / MENU button and then move the toggle switch up or down to select folder A, B, C or D. Press the ON - Play/Pause button to play back a track. Press the OFF button on the front to stop.

## SET DATE / TIME

**Sony VR5220:** Hold down the FOLDER button, then press the left or right arrows until SET DATE is shown. Press Enter (play) and then select MANUAL. Press Enter. Use the left/right arrows to increment up and down for each number, press Enter (Play) to accept each value.

**Sony UX71:** Hold down the FOLDER button, then press up or down to show the DETAIL MENU. Press ENTER to select. Scrol to DATE&TIME. Select and change each number.

**RCA model:** Hold down the INFO / MENU button and then move the toggle switch up or down to select folder A, B, C or D. Press the ON - Play/Pause button to play back a track. Press the OFF button on the front to stop.
